### What Other Newspapers Say

Red Blood and Religion.—What the aftermath of this war will be for the churches is problematical. But one great religious organization—the Salvation Army—will emerge from it flying the bright banner of victory. A multitude of men and women who once looked askance at this body of laborers in the Lord's vineyard have faced about. These Salvationists have shown that red blood and religion are not antithetical and that a man is no milkop because he prays. They have proved that worshiping the Prince of Peace is not a renunciation of the G.O.P. battles. They have endeared themselves by their courage and devotion, to hundreds and thousands of soldiers who were once shy of their hymns and prayers until heard amid the roar of guns. When these boys come home and are appreciated by a laud in a side police lounge, they will suddenly recall the taste of those doughnuts and the coffee along the banks of the Marne, and they will die up.—Chicago Evening Post.

Everlastingly Delivering the Goods.—"I thought you might be interested in the accompanying paragraph from Walter S. Ball, our staff correspondent at the front, which reached me in a letter of a recent date: 'The organization the men swear by wherever they encounter it, is the Salvation Army. It is small by comparison, but wherever it exists it is everlastingly delivering the goods,' writes John R. Rathon, editor and general manager of the famous Providence R. I. Journal."

### Died

At the hospital, on Saturday January 18th, of Mrs. Hattie May Elgin, the wife of Mr. Lee Elgin. Mrs. Elgin has been suffering considerably for the last two years and when taken down with the influenza little hope was entertained for her recovery. From the first the gradual sinking, and sixteen days after entering the hospital she passed away, at the age of 39 years. She leaves a husband and three children—two girls and a boy, to mourn her loss. The youngest child is only a little over a year old.

Mr. and Mrs. Elgin came to Clareholm from Oklahoma. Fifteen years ago and have lived in the district continuously ever since.

Mrs. Elgin was beloved by all who knew her, and her patience in her suffering endeared her to those who lived in close touch with her. The bereaved family are assured of the heartfelt sympathy of the entire community.

There was a large attendance at the funeral which took place on Tuesday

from the Methodist church. Mrs. J. W. Barrett of Libby, Montana, and Mr. Elgin, of Travers, were amongst the mourners. An impressive service was conducted by Rev. F. Locke.

### Dorothy's Ten Parental Commandments—Kex Theater Monday and Tuesday

Having to play in "The Talk of the Town," her newest Jewel Production, the role of a daughter, who whirls on the brink of sin's abyss, because no one had warned her in her youth of the pitfalls set for innocent young girls, unversed in life's mysteries, Dorothy Phillips, the emotional star, studied the problem of parental mistake ignorance for innocence, and evolved the following ten commandments for fathers and mothers to follow in making life's path less difficult for their daughters:

- 1—Explain the mysteries of life at an early age.
- 2—Do not refuse to answer any question your girl may ask.
- 3—Pick your servants carefully; for a thoughtless helper may divulge the beautiful secrets of nature in a vulgar manner.
- 4—Make your daughter feel the utmost confidence in you, so that she will tell you all her perplexing problems.
- 5—Exercise careful supervision over the friends your daughter chooses. Their influence in her life is potent with either good or evil.

6—Encourage the society of nice boys of your daughter's own age. Entertain them in your home. It is better than forcing your daughter to clandestine meetings in the park.

7—Do not absolutely forbid anything. Remember "the forbidden thing is the thing desired."

8—Discourage the public dance ball.

9—Encourage her in simple dress. During seasonal costumes often invite insulting comments and remarks from men.

10—Do not be afraid to let her see good sex plays. They will show her the right and wrong paths for a young girl to pursue.

If you want to see what happened to a girl whose parents did not follow out these ten commandments, but who went exactly opposite to the ideas contained in them, go to the Rex Theater and see the "Talk of the Town," Monday and Tuesday, January 27 and 28.

Save—help yourself and Canada by investing in war savings stamps.

Thrill Stamps save "quarters."

## BILIOUSNESS

### How To Prevent and Cure

Away the earliest symptoms are found, tongue and dull headache. Then comes dizziness, and lastly, quick pulse, fever and cold sweat. Finally, sleeplessness and vomiting make the condition of the sufferer almost intolerable.

The root of biliousness is with the liver which is clogged and can't keep bile from getting into the blood. Nothing works with the certainty of Dr. Hamilton's Pills; they act directly on the liver, restore the bile to its proper course and prevent it from contaminating the vital fluid.

Of course, the bowels are cleared and relaxed by Dr. Hamilton's Pills, the kidneys receive new tonic, the blood is renovated, and the result is a renewal of good health.

No need for delay, the sooner you use Dr. Hamilton's Pills, the sooner you'll feel the brisk, keen satisfaction of a healthy, well-regulated system. Sold in 25¢ boxes, 25¢.

## Trial Is Advised

Thousands of Charges Against Kaiser Being Investigated

London. — Proceedings against the former German emperor are advised in special report by a sub-committee of the commission charged with inquiring into violations of the laws of war, appointed two months ago. The parent body has done a great deal of work through its sub-committees and it was which was assigned some particular phases of the violations charged against enemy countries. Plans for a tribunal which will try cases in which violations of the laws of war are alleged have already been submitted.

One of the most difficult phases of the work has been the inquiry into ill-treatment of prisoners, the employment behind the firing lines, illegal methods of securing military aid of the Red Cross flag, bombardments of hospitals and the execution of Miss Edith Cavell and Captain Freytag. The sub-committee having this work in charge has already examined about 100,000 cases of ill-treatment of prisoners and has about 150,000 more to investigate. This sub-committee has already submitted an interim report on the employment of prisoners behind the firing lines and in German mines and quarries.

Offences of the sea are being dealt with by a third committee, its investigation including the destruction of merchantmen, the firing on crews after the destruction of their vessels, the sinking of hospital ships and other alleged violations. This committee has already submitted a report on illegal submarine warfare. A fourth committee has been dealing with offences from air such as the indiscriminate bombardment of towns and the aerial or reckless bombing of hospitals.

## Embargo Affects Exports

Half Million Tons Per Month Backed Up in Canadian Warehouses

Montreal. — The arresting of almost the entire overseas export shipments of Canada has been affected by an order from the Canadian railway board recently issued, which has backed up in Canadian warehouses, elevators and mills, amounting to something like half a million tons of goods and materials.

The embargo has been placed because the British and Canadian ports have at present more traffic than they can handle. The British ministry of shipping had advised that ships cannot be accomplished. That means they cannot be loaded. St. John and Halifax must be protected and that in turn means that no ships must not hold their shipments so as not to plug the transportation lines.

This explanation was given a railway board official. How long the embargo will remain in force depends on how long before the ports are cleared up. There is now sufficient freight at St. John and Halifax to meet the requirements of all vessels sailing during the present month.

## Aviator Arrested

London. — Captain Lang, the aviator who recently established a new altitude record of 30,500 feet, has been placed under arrest by the British army authorities, according to the Evening News. The captain was arrested, it is said, because of his disclosing without authorization the details of his climb.

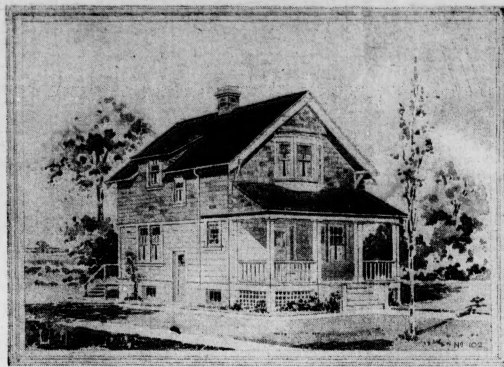

Second thoughts are best, unless they happen to be second hand thoughts.

# FARM ARCHITECTURE AND BUILDING

## An Attractive Two-Story House

## Plan Opposed by Ludendorff

High Staff Men Suggested That the Kaiser Got Into Battle

Washington. — Dramatic capture of the Kaiser or possibly his death on the field of battle, was averted only by the intervention of General Ludendorff, it was learned through authoritative diplomatic disclosures.

Wilhelm's arrival at German general headquarters, after his flight from Berlin, was the signal for a revival of spirit of the discouraged German troops, according to the disclosures. Several high staff men suggested that the Kaiser go into the midst of the battle, it is stated, and the suggestion was taken up by the Prussian Guards and other staunch Tonton legions.

Ludendorff opposed the scheme, it is declared, on the ground that it would result in no military gain and would embolden the army's withdrawal.

The advice also disclose the fact that German general headquarters on August 15 suggested approving defeat and recommended the Kaiser's abdication.

Chancellor von Hertling, daily refused to inform the Reichstag or the press of the true military situation, it was declared. The following week Ludendorff suggested to Berlin that Holland be requested to offer mediation to all combatants, the advice stated.

## Statesmen Urge Immediate Action

Food Relief Key to Whole European Situation

Washington. — In a message solemnly urging congress to appropriate the \$100,000,000 requested for European food relief, President Wilson said that should Bolshevism proceed steadily westward it could not be stopped by force but by food. Food, he said, was the key to the whole European situation and to the situations of peace.

The president said the European statesmen urged immediate and concerted action as a means of stemming the tide of famine and unrest.

A message from Henry White, member of the American peace delegation to the state department, said the startling westward advance of Bolshevism dominated the entire European situation above all else, and that it was of the utmost importance that the president's request be granted at once.

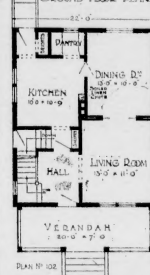

"Bolshevism," Mr. White said, "now completely controls Russia and Poland, and is spreading through Germany, and apparently the only effective barrier is food ration." He added that it was impossible to inaugurate the peace conference under proper auspices without previous adequate provisions to cope with this situation.

The president's message and that of Mr. White were read on the floor of the house during the debate on a special resolution to give immediate consideration to the appropriation bill.

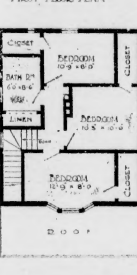

## Must Maintain Efficient Army

London. — Brest's underarms that general demobilization cannot be ordered until after the peace conference, as an efficient army must be maintained in order to meet any contingency. Ten thousand soldiers have been discharged daily for some time past, and the number dealt with in France increased to over 20,000 daily, including men from the Dominions.

## GROUND FLOOR PLAN

## FIRST FLOOR PLAN

If you have not been in the position to appreciate the saving of space provided by a grade entrance at the side, a locked linen closet, large linen closet and the other little things that bulk so large in making for a convenient home, note those things shown in this design, and when you decide to build your home, you are desirous to have some, if not all, of them incorporated in it. This home, if built to a good specification under competent supervision, will be easily heated and comfortable. As far as first cost is concerned, you may, within certain limits, make it as low or as high as you please, depending on the quality of interior finish you use.

## Edmonton Expects

Very Busy Season

Revival of Building Throughout the Three Provinces

Edmonton. — A new building campaign of large proportions has been known at any time since the boom days will follow the adoption of the housing scheme in Alberta, and the lumber and carpentering trades of that province are already looking for a busy year.

Whether the scheme is taken up by the federal and provincial governments or not, the lumber industry in and around Edmonton is practically sure of a wave of prosperity, and business arrangements are now being made on that assumption. The milling companies will make larger cuts in the woods this winter than for several years past, and there is a fair likelihood of prices advancing. A stiffening up tendency is already showing itself in the house market, with general increases in the demand for lumber from prairie points.

Lumber operators are of the opinion that Alberta spruce will sell on a base price of \$80 per thousand next summer. Last year's market began at that figure, and afterwards dropped from competitors' bids, but it is now expected that prices will go back and stay there for 1919.

There is an improvement in the labor situation, it is reported by the lumber manufacturers. More men are now available for work in the camps, and wages have dropped somewhat. The rate for bushmen now being \$60 per month. It is expected that the labor supply will be considerably steadier as a result of the ending of the war, and there will be some busy cutting in the woods north of Edmonton all through the coming winter.

The chief market for Alberta spruce next year will be the prairies and the United States. The mountain mills in British Columbia are planning on a reduced output, it is stated, and the coast mills will be busy. If plans work out as expected, on reconstruction orders from England. A phase of the situation of considerable importance, however, is the fact that

some of the coast mills are now being inclined to nudge upon the prairie their surplus stock left over from the cutting of ship timbers, and in some cases the prices are being cut away down.

Prospects for the local industry are said now to be of the best. Orders and inquiries from retail dealers are beginning to come in on a much larger basis than for some time past, and the inference is that more building is in view for the coming year. The way it looks to the operators and dealers is that there will be a genuine revival of large and small building throughout the three provinces, with a consequent demand for lumber. — Edmonton Journal.

## FARM ARCHITECTURE AND BUILDING

### DEPARTMENT ESTABLISHED WITH THIS ISSUE

This paper has always supported and co-operated in any legitimate movement through the agency of which the needs of the commonwealth might be realized.

At one time or another almost every one is directly interested in a building enterprise and we believe that hardly any other field of activity in which genuine helpful advice and accurate information is so necessary.

Therefore, with this issue we have inaugurated a Farm Architecture and Building Department as a permanent weekly feature.

We have been fortunate in obtaining the services of a firm of competent authorities on building matters who will be able to give our readers helpful advice on building problems.

Each week besides authoritative articles on building and general building information there will be published a perspective and plan of a farm house, barn or other farm building. In order to provide practical advice and assistance in particular cases when building perplexities arise, a "Question and Answer Department" will be conducted which our readers may take advantage of by writing the question and mailing the same to this office and it will be given prompt attention through our department.

## WORKING DRAWINGS

For the benefit of our readers we have arranged to provide them with working drawings of the buildings appearing on this page from time to time for which there will be a nominal charge of five dollars per set.

## Builders Seek Price Stability

Expect Most Wage Scales to Be Announced Before Another Year by January 1

It is becoming daily more apparent in building material and construction markets that the building investor is seeking more assurance of stability of price and basic cost of construction before releasing cheques.

In consequence of the general recognition of this tendency trade meetings are to be held in this city, Atlantic City, Pittsburgh, Chicago, and, in fact, all parts of the country this week and next, and the keynote of all will be how to insure price stability and uniform construction costs.

The building trades employers' association of New York took a formal stand last week to insure the stability of the labor situation when the board of governors adopted a resolution to the effect that "all trade agreements expiring at the end of time 1918 may be renewed for a time not exceeding one year, and that trade associations shall not agree to pay wages in excess of that now being paid, as set forth in a schedule, in any new agreement made for the year 1919. This schedule fixed the prevailing rates of wages for carpenters, \$5.50; same for shapers, \$5 (in all boroughs); composition roofers and waterproofers, \$4.25 (Jan. 1, 1919, \$5.75);

carpenters, laborers, \$3.00 (Jan. 1, 1919, \$4); elevator constructors, \$4.50; house painters, \$4.50; painters, \$4.50; plasterers, \$4.50; plasterers' laborers, \$4.50; stonecutters, \$6; woodcutters, \$22 per week, minimum.

This schedule included the resolution that "the rates of wages now being paid shall be strictly adhered to by all members of the association until the expiration of the existing trade agreements, except in the case of those agreements which provide for additional increases." The schedule included:

bricklayers, \$5.50; laborers for same, \$4; bricklayers, \$7; laborers for same, \$4; cement masons, \$5.50; dock builders, \$5; electricians, \$6; helpers for same, \$3; engineers, \$6.50; housemills (structural) \$7; housemills (finishers) \$6.40; m-

ble cutters and setters, \$6; marble carvers, \$6.50; marble polishers, \$5.50; mosaic workers (helpers) \$4; plumbers, \$6; slate and tile rofers, \$6.40 (Jan. 1, 1919, \$6.50); steamfitters, \$6; helpers for same, \$4.50; roofers and sheet metal workers, \$5.50 (July 1, 1919, \$5.80); stone setters, \$7; tile layers, \$6; helpers for same, \$4.65.

## Building Conditions Rapidly Improving

Early Start on Construction Work Is Promised

Talking of building and discussing the reasons why those who need buildings should decide to carry out their projected construction work early, a prominent member of the building fraternity said:—"We are in a position to handle work at approximately fifteen per cent below war-time prices."

"These conditions are largely responsible for our willingness to cut bids on present construction work below war-time prices. The first is the increased stability of labor. The second condition is the reappearance of competition in the delivery of material brought about by the relief of transportation hindrances and the resumption of long haul deliveries. The third factor is the elimination of irresponsible contractors during the stress of the war period, and the resultant regrouping of contracting firms who have withstood the tests of the war emergency conditions and are at present operating on a sounder business policy than ever before."

The building situation from the standpoint of the speculative interests has improved to an extent that will warrant an early start on construction work of a speculative and investment nature. In the case of those who are planning to build for a considerable volume of work of this nature and just as soon as this form of activity gets a start the conservative among the speculative builders will again come into the market. There is no doubt as to the intensity of the demand for living accommodation, nor is there any question about the lack of rent-able space to meet the demand.

"Your lunch will be fresh and tasty at dinner hour to-morrow. It is wrapped in Para-Sani."

## PARA-SANI WRAPPER

Heavy, waxed paper in House-hold Rolls, with handsome black Roller-Reel. Para-Sani is cheaper and more convenient than waxed paper in loose sheets and the paper is of better quality.

**Keeps in the Moisture, keeps out the Germs**

Para-Sani is moisture-proof, air-proof, germ-proof. Sandwiches, cakes, bread, cheese can be kept fresh and wholesome if wrapped in Para-Sani. Para-Sani will save many times its cost by preventing waste.

### F. Krammer Is Not an Alien

The following notice appeared in the Edmonton Bulletin:

The Edmonton Lodge of the Western Association of Mechanical and Electrical Engineers wish to inform the public that the statement being circulated through the City and Province that Bro. Frank Krammer, who is a member of this Association and a first class certified engineer, is not, as is being circulated, an Austrian or is a alien enemy of this country, as his following record will show.

He was born at Leith, near Edinburgh, Scotland, in March 1868, and of Scottish parentage. At the age of two years he was taken to Trieste, Austria, by his parents, his father, who was an engineer, having accepted a position with the Austrian government as superintendent of several torpedo boats which had been built in Scotland for the Austrian government. He stayed in Austria 16 years where he received his education. At the age of 18 years he went to sea, landing in England in his 19th year, where he was employed for the next four years with the well known firm of Dunslop & Sons of Glasgow, and Farmers Limited of Yarmouth, England, in marine engineering. He then entered the British Mercantile Marine and received his second class certificate and a ticket of leave from the First Class British Board of Trade Certificate in 1908. After receiving that certificate he served 10 years on various steamships all flying the British flag, and came to this country in 1908. Since being in this country he has qualified for the Privileges of Manitoba, Saskatchewan and Alberta.

This member has produced satisfactory proof of all these qualifications, and we wish to have the public know that the statements being circulated respecting him are not true, and that he has no Austrian or German sympathies at all, but is a true patriotic subject who is having a very hard time to get along since the outbreak of the war owing to his

name. In addition we would say that he is at present a member of the Royal Artillery Reserve, and can be called upon at any time to serve in the defense of our Empire.

Signed on behalf of the members of this Association.

WILLIAM GEO. SINGER,  
Secretary-Treasurer.

If every person who is in a financial position to do so will lend a few dollars to the government by investing in war savings stamps, it means millions to the government, helps to finance the war debt, and helps to maintain our national prosperity.

## It Pays to Treat

## Every Customer Right

We adopted that policy when we took charge of the lumber yard here, and our increasing business offers the best evidence of how appreciative the public is. Looking back over the past year we have every reason to feel proud of the volume of business done, and especially so when we consider that we have made a friend of every customer. With the starting of the New Year, comes new resolutions to make new customers and new friends.

## Clareholm Local News

W. Knight was a visitor to Calgary on Wednesday.

Dave Staples spent a few days in town this week.

Born to Mr. and Mrs. Norgard, on Monday last, a girl.

Jack Smith of Okotoks was a visitor in town on Tuesday.

James Proutt of Redcliff was in town for a few days this week.

The Rex Theater is putting on some of the very best film obtainable.

The installation of officers for the K. of P. lodge took place last Wednesday night.

The Red Shield campaign funds will be open for subscriptions till next Wednesday.

John North of Calgary was in town on Wednesday attending to some business matters.

Mr. Walker manager of "44" Ranch and Fred Watkins motored to Lethbridge on Friday.

John Vance and family of Saskatoon are visiting with their relatives at Meadow Creek.

Mrs. John Fraser went to Calgary Wednesday to meet her son Arnold on his return from overseas.

Mr. James Rice has returned from Calgary this week after recovering from his operation for appendicitis.

Mr. James McKimney, Mr. R. S. Law and Mr. Laflin left on Monday morning to attend the U. F. A. convention at Edmonton.

On Monday night the I. O. O. F. lodge installed officers for the current term. Several of the Starkey Odd Fellows were present.

Mrs. R. C. Clifford is selling her household goods, etc., on Saturday, February 1st. See announcement in Vancouver Strangler's ad.

Ted Mackay and wife and Mr. and Mrs. Vanhorn motored to Lethbridge on Thursday and will spend a few days taking in the sights of the city.

J. W. Walker, manager of the Bank of Commerce, returned from the east on Tuesday night. He has been attending the annual meeting of the managers of the bank.

Mr. Arnold Fraser arrived in town on Thursday night. He came over on the Olympic. He was wounded in action in the leg while in France but has now completely recovered.

Mr. J. W. Walker, who returned from Toronto on Tuesday, was taken down with the influenza almost immediately on his arrival. He is being well cared for and is progressing favorably.

Pic. Carl Edlund landed in Vancouver this week and will arrive home in a few days. He returned via the Panama canal. He was wounded in France last year and has spent a long time in the hospital.

Will farmers who are contemplating selling in public auction this spring please get in touch with the auctioneer as soon as possible so as to secure the best dates possible for an early sale.—Albert E. Stanger.

Mrs. McKimney, M. L. A., has been attending the U. F. A. convention at Edmonton. Her address was very favorably commented on by the press and appears to have been enthusiastically received by the convention.

The next meeting of the Frothills Chapter, I. O. O. F., will be held on Tuesday, January 28, at 4 p.m. in the Harrison Hall. All members are urgently requested to make a point of attending, as nominations for the various offices for 1919 will be made.

The hospital closed here on Tuesday and the few remaining patients returned to their homes. It has been a great boon to the community during the epidemic. It is hoped that before long a permanent hospital will be established here so that in the near future it will not be necessary to interfere with the operation of such an important educational institution as the Agricultural college. The town has suffered a big financial loss through the closing of the school for the winter.

Pic. Percy Hotchkiss landed in Halifax on Tuesday of this week and will arrive in Clareholm to visit his sister Mrs. Frank Murray early next week. He has spent nearly two years in France in the engineers. His parents, Mr. and Mrs. Chas. Hotchkiss, who used to live in Clareholm, are now living in California.

Mr. Edlund has gone to a great deal of trouble and expense to secure Charlie Chaplin and Mildred Harris (now Mrs. Charlie Chaplin) for the same bill and we are sure the public will appreciate the appearance of these two screen stars at the Rex at the same time. These two films had to be secured from different companies, and it entailed unusual expense.

Sunday school and bible class will be held at the close of the regular morning service on Sunday, January 26, in the Methodist church. All who have joined or wish to join the new training class are asked to be present. The sermon in the evening will be more particularly a message to young men and women. The pastor extends to every member and adherent of the church a most cordial invitation. Sunday, February the 2nd, will be our Annual Missionary Sunday. The Rev. Robert W. Dalgleish, of Crescent Heights, Calgary, will be the preacher.

Diad. at Stettin on Thursday, January 21st, Mrs. J. Gaudin. The funeral takes place at Stettin on Sunday, Mr. R. A. Shearer, a brother of Mrs. Gaudin, left on Friday morning but was not in time to see her alive. Mr. and Mrs. Gaudin spent many years in the Clareholm district engaged in farming and left here four years ago. Mrs. Gaudin has been an invalid for a long time, and her death was not a surprise to those who have known her years of suffering. Their friends in the Clareholm district extend to the bereaved family their sincere sympathy.

### Card of Thanks

Mrs. Joseph McAlpine wishes to express her sincere thanks to her many friends for their kindness and sympathy extended during her recent bereavement.

### Card of Thanks

Will our many kind friends who helped us so generously with their sympathy and kindness during our recent bereavement please accept this intimation of our appreciation and gratitude.

Lee Elgin and Family.

# Forests of France To Be Restored By Norwegians

Stockholm. — Norway intends to help out the restoration of the devastated tract of France in the front zone by planting a belt of 30,000 Norwegian fir trees. Much enthusiasm was developed for the scheme and it is intended to begin this spring. It comprises the planting of 250 acres annually for five years and the money is streaming in to Consl Helberg in Christiania.

The idea is to send a forestry party of about fifty Norwegians fully equipped with tools, tents, tents and stores so as not to impose the slightest burden upon France. The tentative zone for planting the belt of trees is from the Ardennes toward the Belgian frontier behind Arras, where formerly was a fine forest but action will be taken in accordance with the desires of the French.

## Sweden Will Feed Huns

If Swedish Red Cross Desires To Purchase Foodstuffs for Distribution

Stockholm. — Ira Nelson Morris, American minister to Sweden, has just received a cable from Herbert C. Hoover in Paris that is likely to cause the shipment of foodstuffs distributed among the sick and poor in Germany soon. Just before Christmas Prince Carl asked Mr. Morris on behalf of the Swedish Red Cross, if permission could be obtained for the Swedish Red Cross to take food from Germany. Ascent was given, and it probably will be accepted in now given. The Swedish Red Cross desires to purchase foodstuffs for distribution in Germany, particularly pork, as we can arrange to sell them a quantity of meat and cereals once from the stocks we are shipping in bond to Holland and will take steps to secure a relaxation of the restrictions.

## Will Keep Fleet In Mediterranean

First Battle Squadron to Prepare for Two Years' Service

London. — The Sunday Express states that the government intends to place on the reserve the British Mediterranean squadron, sending it, particularly strong squadrons. It declares orders have been given for the first battle squadron to prepare for two years' foreign service. The squadron will include Iron Duke, Beshov, Marlborough, the Empress of India and the Queen Elizabeth. A light cruiser squadron and two flotillas of destroyers will accompany the battle fleet and their base will be at Malta, as heretofore.

**Orientalists Organize Bolshevik Society**  
Stockholm. — A copy of the Svenska recently smuggled into Finland is said to reveal the organization in Russia of an Orientalist society for international. The paper says: "Both the Chinese and Koreans in Petrograd have formed a Bolshevik association which is now busy with propaganda among the national colonies in Russia."

# Marshal Foch Says Rhine Must Be Used as Barrier

Treves, France. — It is the conviction of Marshal Foch that the Rhine must be made the barrier between Germany and France, he expressed this clearly here when he received American newspaper correspondents. The main theme in connection with the meeting concerning the extension of the German armistice.

Marshal Foch pointed out the difficulties that had been overcome, and said that peace must be accompanied with the price of victory. Many now was beaten, he added, but with her resources, especially in men, recuperation in a comparatively short time was quite possible. It was not the duty of the allies to prevent further aggressions.

After he had paid a warm tribute to the American troops, Marshal Foch was asked: "But was not the armistice concluded too soon?" "It was not possible to do otherwise," answered the marshal, "because the Germans gave up everything that we asked for at once. They said that

## Situation Normal

Buenos Ayres Recovering from Effects of General Strike

Buenos Ayres. — Buenos Ayres was slowly recovering from the effects of the general strike and the situation this morning was approaching normal. A few of the big stores, in an effort to inspire confidence, opened their doors and received the steel shovels from the windows. As the day progressed other stores opened, taxicabs appeared and the streets began to move in several days and partial street car service was resumed.

Three hundred strikers and strikers' leaders were arrested this morning from government sources. This makes the total for the last three days thirty hundred, eighty per cent of whom are Russians. Some of the strikers leaders resisted arrest and were lashed by police officers.

Report from Montevideo says that the authorities there are strengthening their forces against the Bolshevik movement. Troops have been thrown around Villa de los Cerros, where there are American packing houses.

## Hun Revolvers Are Jail Birds

Troubles Present Police and Not a Political Problem

Stockholm. — Swedish correspondents in Berlin report that the government all through the bloody struggle in the recent days had the overwhelming weight of strength, especially political strength, on its side. They say that the German army regards the troubles as a purely police and not a political problem. They add that the people are becoming aroused against the Bolshevik movement, and that the government is taking steps to prevent any further criminal out of jail. The correspondents declare that more than 90 per cent of the Spartacists have jail records.

In a despatch filed in Berlin it was said that chief of police, Eickhorn was still at his post. The street car had ceased and that railway employees were striking. Battles at the Rhine were taking place, the foreign office and the palace of the crown prince, with field guns on both sides, firing at point blank range, killing and wounding a great many and causing much damage.

## German Warfare In East Africa

When British Troops Landed Bees Were Released

San Francisco. — Swarms of wild bees were used by German troops who sought to prevent the landing of British troops at Tamsu, German East Africa, making possible the effective use of machine guns, according to R. M. Ewart, superintendent of the British Africa police who arrived here enroute to London. The German troops, Ewart said, instructed natives to collect millions of wild bees in wooden hives. The hives were kept in readiness and when the British troops landed the bees were released.

"The angry insects swarmed about the men and horses," Ewart said, "and while the men were fighting them off, many of them suffering fatally from stings of stings, the German troops turned loose with machine guns, inflicting heavy casualties."

## Herring Found Along Arctic Coast

Ottawa. — The discovery by the Stefansson expedition party of great herds of herring in the far northern waters of Canada, is announced in a statement which was issued through the naval department. The statement asserts that abundance of herring has been found along the Arctic coast.

## Hans Must Show Hand

London. — Rudolph Haverstein, president of the Imperial Bank of Germany, has declared that the Bolsheviks are not to be ordered to pay by Marshal Foch, according to a despatch from Berlin to attend a conference concerning the future financial situation in Germany.

## Prepared to Enter Into Negotiations

Copenhagen. — Maxim Litvinoff, former Bolshevik ambassador to London, has sent a note to President Wilson declaring that the Bolshevik government of Russia is prepared to enter into negotiations with the allies, provided the allies are prepared to enter into negotiations with the Bolsheviks.

## One Strike That Failed

Amsterdam. — The appeal issued by the Independent Socialists for a general strike on account of the death of Carl Liebknecht and Rosa Luxemburg, has proved unsuccessful, according to a Berlin despatch.

## Sailors Will Present Demands

Blue Jackets Sit With Committee of Officers

London. — For the first time in the history of the British navy, blue jackets will sit with a committee of officers appointed by the admiralty to discuss future pay, pensions and other subjects relating to the service. 100 delegates, representing the lower half of the navy, met and formulated demands which they will present at the conference. The demands include an increase for every one of five shillings a day in the rate of pay, or £73 to the wages of the various lower deck ratings, which now range from £23 to £33 a year; that sailors be paid at the rate of two pence a day for each year of service, which is one hundred per cent, increase over the present rate; that claims be made for pensions for disabled and disabled men; that pensions to widows and direct dependents of the sailors be increased and that a bonus of £30 be paid all ratings on leaving the navy after 12 years.

## Arrange for Special Steamers

To Bring Soldiers' Dependents Back to Canada

Ottawa. — The department of immigration and colonization has arranged for special ships to bring soldiers' dependents, who are overseas, back to Canada. The special ships will carry no troops except the soldiers' dependents and the sailor families. In the case may be, of these dependents.

The Dominion government will pay the railway fares of the soldiers' dependents from points in Great Britain to the port of embarkation and from the port of embarkation to their destination in Canada.

## British Have Monster Gun

London. — A big gun which was expected to be of even greater power than the "Big Bertha," was among the secret productions of the British cannon works. This gun, which, it is said, was to have been used to bombard the Rhine towns, was about 43 feet long and its weight, when mounted is said to be 124 tons. It was stated officially that the monster cannon would have a range of 50 miles, but the men working on it were of the opinion that it probably would be destructive at 90 miles.

## Stolen German Children

Sofia. — Under pressure of the allies, the Bulgarian government has issued orders to prefects throughout the country, asking that charges be preferred against any people who are detaining in their homes Greek boys and girls who were carried away from German Macedonia during the war. So far no missing children have been given up as a result of this, but every day numbers of Greek children are brought to the Greek frontier by allied soldiers who find them on the streets.

## Russian Bolsheviks Arrested

Göteborg. — Several German and Russian Bolsheviks have been arrested by the Lausanne police. It is said that the men in custody were bearing false passports and were on their way to Paris.

The Gazette of Lausanne says: "The Bolsheviks under arrest plotted against the lives of Premier Clemenceau, President Wilson and Premier Lloyd George. The plot was backed by German gold."

## New Classes of Armistist Signed

Paris. — The Havas agency announces the signature of the new classes of the armistice, which stood concerning the surrender of German submarines ready for sea and the cessation of the construction of the course of construction, which the allied communications discovered in German ports in December. The armistice was signed in the name of the German emperor and the German people.

## Bolshevik Victory

London. — Milan, capital of Courland, has been occupied by the Bolsheviks, according to a German wireless despatch received here. The Germans were obliged to leave behind their arms and ammunition and the Germans evacuated Milan, broke out, destroying many houses in the centre of the town.

## League of Nations Note

New York. — President Wilson has issued a note to the League of Nations, stating that the prospects for an agreement upon a league of nations were at present most favorable.

# Youngest Son of King George Died in Sleep

## South Africa Reassured

London. — Prince John, youngest son of King George, died at Sandringham Saturday. He had been ill for some time. The prince was the prime favorite of all classes and had suffered epileptic fits, which lately had become more frequent and severe, passed away in his sleep, following an attack at 5.30 p.m. Saturday.

An official bulletin issued July 1, 1918.

"Prince John, who since infancy had suffered epileptic fits, which lately had become more frequent and severe, passed away in his sleep, following an attack at 5.30 p.m. Saturday."

The funeral of Prince John will be held at Sandringham on Tuesday and will be strictly private.

It is understood that his death will not affect plans for the marriage of Princess Patricia of Connaught, which is fixed for February 27.

## Troops Are Divided

Disorders in Portugal Development of Radical and Democratic Movement

Paris. — The present violent disorders in Portugal following the recent assassination of President Faria, seem to be a development of the radical and democratic movement against the reactionary government which had obtained complete control of the country and whose power was not without a certain lightning effect. Some of the troops seem to have taken one side and some the other. The official statement attributes the trouble partly to Bolshevik agents, but this seems to be merely another example of the kind of persecution which is being put upon the term Bolshevik. Every political movement originating in the radical or liberal element of the population is being persecuted by its opponents. The details of the Portuguese revolt are lacking, but it seems to have spread into many districts.

## Japan Will Carry Out All Her Promises

Tsingtau Returned to China in Accordance with Treaty

Peking. — Obtained, the new Japanese minister to China, said in an interview with a correspondent that Japan would carry out all of her international promises concerning her entry into the war and that Tsingtau would be returned to China in accordance with the treaty.

## Land for Soldiers

Ottawa. — Hon. N. W. Rowell, president of the council, in a speech before the people's forum, said that while the government at present has no plan to give land near the railways to meet the needs of returning soldiers, it did not intend to allow this question of things to rest. They acted frankly and openly in the interests of the ruling houses. They were Carl Alexander I, who was the emperor of the German empire; Prince Mettenich, acting for the Hapsburgs; Prince Harsburg, acting for the Hohenzollerns; Prince Bismarck, acting for the Prussians; and Viscount Cantelag, acting for the British.

Five men divided the world at will. They acted frankly and openly in the interests of the ruling houses. They were Carl Alexander I, who was the emperor of the German empire; Prince Mettenich, acting for the Hapsburgs; Prince Harsburg, acting for the Hohenzollerns; Prince Bismarck, acting for the Prussians; and Viscount Cantelag, acting for the British.

## Idea of League of Nations Was Conceived Long Ago

Paris. — A map of the world lies on the table at the Quai d'Orsay and when the conference has closed it will have been made. This is the first time since the congress of Vienna, 104 years ago, that such radical changes affecting future great political groups have been attempted. There are many similarities and contrasts between Vienna and Versailles or rather between the congress of Vienna and the present time at the ministry of foreign affairs.

Five men divided the world at will. They acted frankly and openly in the interests of the ruling houses. They were Carl Alexander I, who was the emperor of the German empire; Prince Mettenich, acting for the Hapsburgs; Prince Harsburg, acting for the Hohenzollerns; Prince Bismarck, acting for the Prussians; and Viscount Cantelag, acting for the British.

Five men divided the world at will. They acted frankly and openly in the interests of the ruling houses. They were Carl Alexander I, who was the emperor of the German empire; Prince Mettenich, acting for the Hapsburgs; Prince Harsburg, acting for the Hohenzollerns; Prince Bismarck, acting for the Prussians; and Viscount Cantelag, acting for the British.

## Prussian Deliberated It Would

The impetuosity of the Prussian royal houses of the congress of Vienna has perhaps been supplanted at present by economic imperialism—the impulsion of trade, commerce and finance which today speak through the medium of political parties.

Carl Alexander I, who was a Liberal in his youth and became an imperialist in middle age, conceived the idea of a league of nations to keep the peace of the world. By the time of the congress, however, Prussia is the foster mother of today's imperialism. The league of 100 years ago, which was given to the world by Carl Alexander I, was different in that Mr. Wilson has reason to expect that it will bear fruit.

More than 100 years ago France, through Talleyrand, acquiesced in the obliteration of small nations; today Prussia is the foster mother of small nations. The league of 100 years ago has shown that small nations, sound at the core, will not die under oppression.

## Without Music You Cannot Live a Full Life

Music is now recognized as a necessity in the home. Music feeds the soul, as food feeds the body and literature feeds the brain. Next to religion, it is humanity's greatest comforter.

The New Edison opens the doors to the world of music. It brings the supreme art of the greatest singers, instrumentalists and musical organizations to you with such unerring fidelity that the artists themselves could give you no more.

## The NEW EDISON

"The Phonograph with a Soul"

does not merely imitate; it actually re-creates.

Before audiences totalling more than two millions, thirty great artists have conducted tone tests which proved that no shade of difference could be detected between the artist and the instrument. They have sung in direct comparison with the New Edison, then suddenly ceased, permitting the instrument to continue alone. The only way the listeners could tell when the artist stopped was by watching his lips. And with the lights lowered, they were unable to say when it was the living voice they heard and when the New Edison.

Could a more convincing test than this be devised? Doesn't it prove the truth of our assertion that ownership of this instrument is equivalent to having all the great artists of the world literally at one's command?

Come in and hear the New Edison here, or allow us to send one to your home, where you can hear it at your leisure.

O. L. Reinecke, - Claresholm, Alta.

## The Salvation Army, Soldiers Home Coming Campaign

The War Work and After-War  
Work of the Salvation Army  
"First to Serve---Last to Appeal"

If one institution in the Empire was prepared for war, it was the Salvation Army. For 53 years it has been practicing the relief of distress wherever and whenever the need arose.

And when the war came, intensifying human suffering and the need for bodily and spiritual help in a thousand ways, the Salvation Army was ready.

The entire Salvation Army has always been organized on a military basis—insured to hardship, sacrifice and service. It is always in action, day and night.

And so the twelfth day of the war found the Salvation Army at work behind the lines in Belgium. Since then it has maintained 197 Hospitals, 56 Hostels and 40 Rest Rooms, 1,200 uniformed workers and 40 ambulances at the front—in addition to taking care of the problems which arose here in Canada, as a result of the departure of our soldiers.

Hostilities have ceased, leaving vast and complex problems—human problems—that call expressly for the sympathetic and ardent workers trained by and organized into the Salvation Army.

## The Salvation Army Million Dollar Fund January 11th to 29th

The war work of the Salvation Army has been conducted without any general appeal to the public for funds. While it could "carry on" without appealing, it did so. Now the crisis has arisen. The budget has been prepared for essential work during the coming year, and it has been found that a million dollars must be raised to continue the after-war activities, including:

### Hostels for Soldiers

For our troops "awaiting the victory" in Europe; for soldiers in France or England awaiting transportation; and for returned men landing in Canada, the Salvation Army Hostels provide good food, clean beds, wholesome entertainment, at a price the soldier can afford to pay. The service of the Salvation Army, founded on sacrifice, demonstrates the true spirit of the Master and is directed to the extension of the Kingdom of Christ.

### Care of the Wives, Widows, Dependents and Orphans of Soldiers

The Salvation Army operates Emergency Receiving and Maternity Homes for the care of those whom the soldier leaves behind him. The widows and orphans also present a vast and complex problem that needs the human touch of the Salvation Army.

Your earnest co-operation is needed. For two generations the Salvation Army has stood out and on for truth. It approaches practical problems in a practical way and achieves Results.

"LET YOUR GRATITUDE FIND EXPRESSION IN SERVICE."

Cinnavers will call on you from the Claresholm Committee, or subscriptions will be received at Fraser & Peck's office, Railway Street.

Committee: T. D. Lewis, Mrs. McKinney, M.L.A., R. S. Law, R. K. Peck, Secy.

### Visitation of War Families

The misery caused by helpless families of our soldiers by reason of debt, sickness and misfortune is alleviated by the relief work of the Salvation Army workers, who realize that immediate action is necessary to provide for the present need and to prepare for future need.

### Demobilization

Through its Hostels maintained throughout Canada, the Salvation Army is already assisting vitally in the repatriation of our soldiers, especially those who have returned with no homes to go to, and those who are looking for a new start in life. The discharged soldier must not be turned adrift and the Salvation Army has already proven indispensable in dealing with phases of the situation not provided for by the Government or any other organization.
